Subject: Reference: Docket Number OECA ?2003?0154 Comments

Dear Sir or Madam,

As an environmental professional that has worked across various industries and throughout the U.S., I would like to comment on the proposed Preliminary National Enforcement and Compliance Assurance Priorities for Fiscal Years 2005-2007.

I strongly believe that environmental management systems - if approached in the right manner - can significantly help the over 8,000 federal facilities across the country better comply with state/federal regulations, reduce environmental risks, and become more eco-efficient. Therefore, I strongly recommend that the program "Environmental Management Systems at Federal Facilities" become a national priority for the coming fiscal years.

I also recommend that the following programs become national priorities:

- \* CAA / Air Toxics
- \* CAA / New Source Review/Prevention of Significant Deterioration
- \* Fuels Management
- \* Ports of Entry
- \* Significant Noncompliance Oversight

Please do not hesitate to contact me if you have any questions or comments.

Sincerely,

Roberto Jimenez, P.E., Q.E.P., C.P.E.A.
